MODULE – 2 TECHNOLOGY

1. **Discuss plans for upgrading your technology skills.**
2. **Mention any relevant courses, certifications, or resources you are pursuing.**
3. **Share your approach to continuous learning and professional development.**

Ans:- Currently, I am learning Java, and I will continue learning Java because I feel that Java is an interesting and challenging language. For that, I will enroll myself in Coursera, LinkedIn Learning, or any other platforms. I will update myself by reading books, reading blogs, and doing challenging projects. I believe that staying active in the Java community through meetups and conferences is also crucial for professional growth. This approach ensures that I am consistently improving and adapting my skills.
